

SAFE ENGINEERS AND FABRICATORS

ISO 9001:2015 Certified

**INNOVATIONS
BEYOND ENGINEERING**

About Us

Established in year 2010. We "SAFE ENGINEERS AND FABRICATORS" are engaged in service providing and manufacturing of refinery, steel plants heavy equipment viz. Vessels, columns, scrubbers, reactors, heat exchanger, storage tanks, piping modules, heavy structural for building & bridges etc.

We also providing a customized services for revamp & upgradation onsite.

We SAFE Engineers and Fabricators are highly customer focussed growing industry.

Vision & Mission

Customer satisfaction through QUALITATIVE service and ONTIME supply of Equipment.

Culture of CARING, welfare of employees & their family true on expectations of suppliers and stakeholders.

To become an INNOVATIVE Engineering Industry in the field of Fabrication through SAFETY, QUALITY & DELIVERY altogether.

Key Strength

- Team of Core Engineers.
- Trained Multi Skilled Labor Force.
- Well Identified Resources

We Involve, Deal & Serve

We Involve in Manufacturing of
Refinery & Steel Plants Heavy Equipment viz.
Vessels, Columns, Scrubbers, Reactors,
Heat Exchanger, Storage Tanks, Piping Modules,
Heavy Structural for Building & Bridges etc.

We Deal With Steel Fabrication
Mild Steel, Carbon Steel, Low Alloy Steel,
Stainless Steel, Duplex Stainless Steel, Inconel,
Titanium, Aluminum & All Special Metals

We Serve
Petrochemical Refinery, Steel Plants, Pharma,
Food, Fertilizer Industries & Revamp projects.

We are unique name in the industry to provide our precious clients , the best quality industrial piping service.

We Design , Procure , Fabricate , Erection & Commissioning of Pipe racks & Piping Modules.

Piping solutions prides itself on providing high end quality metal fabrication, installation & maintenance service for industries such as oil & Gas, Chemical, Fertilizers, Power with over 10 yrs' experience.

Reactor Vessels

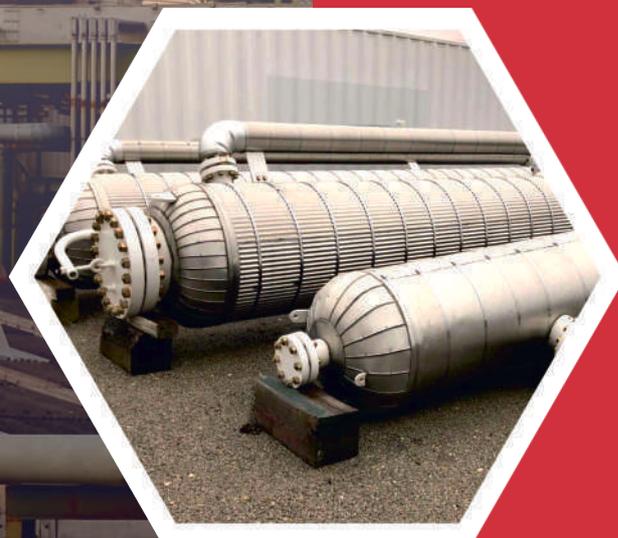

We are renowned as the prime manufacturer & supplier of varied range of reactor vessels.

Vessels offered by us is fabricated under the guidance of our team with highly knowledgeable professionals.

We are fabricating vessels meeting the high quality standards viz ASME, API, IBR etc.

”

We provide total solutions for key equipment of refinery, gas processing and petrochemical plants, ranging from large-scale towers and columns, heavy wall reactors to various kinds of pressure vessels.

Pressure Vessels

In line with reactor vessels we also manufacture & supply pressure vessels to various industries.

We provide a customized solution for the vessels design & fabrication, meeting a customer expectations.

We provide a key solutions for vessel internals design, fabrication and installation.

Industries We Serve

Oil And Gas

Petrochemical

Food Processing
Industries

Chemical
Plants

Pharma

PEB High-Rise Steel Mezzanine Buildings

By adopting PEB concepts in high-rise buildings, all members can be fabricated to exact sizes and specifications using high tech machinery and manufacturing methods at our factory. Fabricating the steel members in a factory controlled environment further reduces time required for completion of project and enhances quality.

Pre engineered buildings are designed to be up to **30%** lighter in weight in comparison to conventional structural steel buildings and high in strength. These buildings offer higher design versatility, flexibility, adaptability and value addition.

Adopted Innovative approach for GMAW welding implementation reduced significant delivery time & Enhanced Quality products.

”

These steel buildings are manufactured keeping in mind the demands of Oil & Gas, Petrochemical, Food Processing, pharmaceuticals and research facilities.

PEB Bridge Girder

We are a bridge girder fabrication stockist and supplier of all Steel Bridge Girders products which are highly appreciated for their strength and durability.

Clients can avail designs in specific shapes and dimensions.

Our range of steel bridge girders types is highly appreciated for its composition strength, excellent durability, and matchless functionality.

Bridge Girder Manufacturer, Suppliers have a wide range of products which include Girders such as Track Foot Girder, Open Web Girder, Composite Plate Girder, and Steel Bridge Girders.

Metal Cutting Services

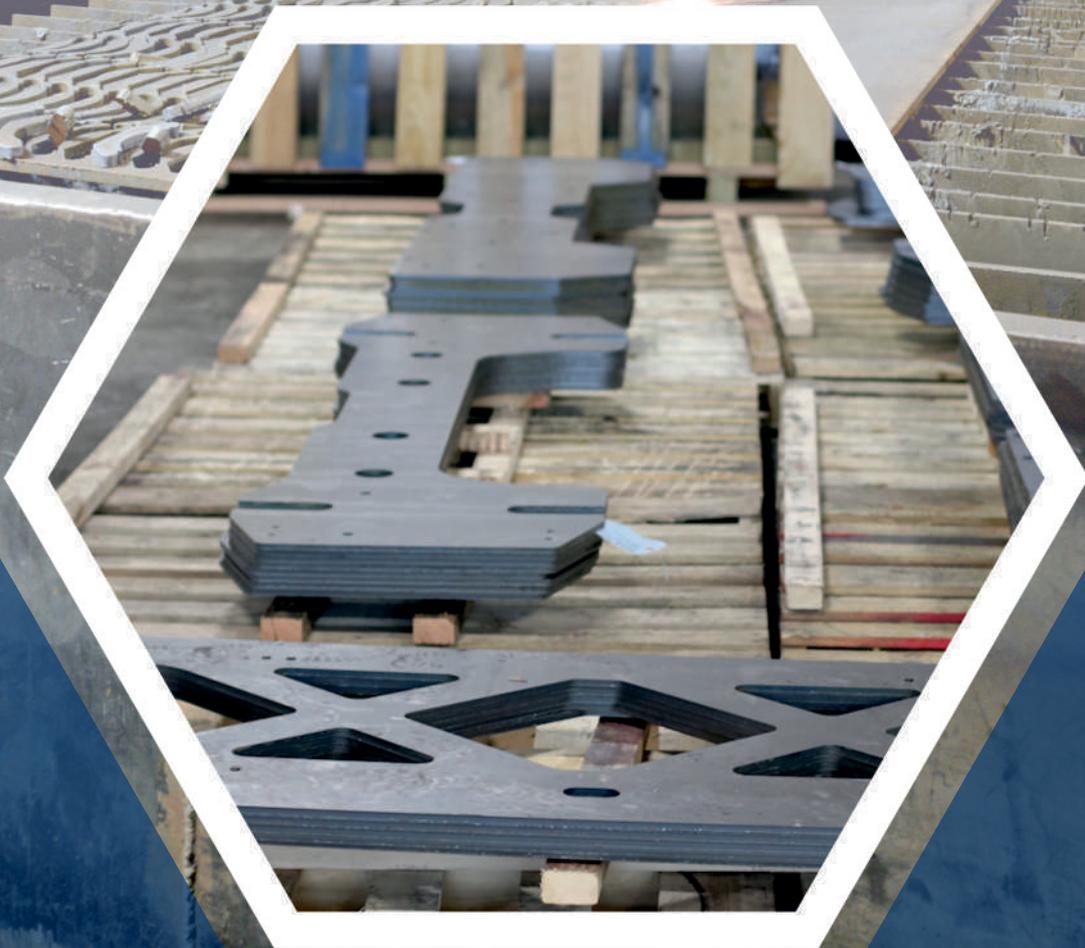

We offer a wide range of CNC Plasma & Oxyfuel Cutting Service. It is completely geared to meet your project and service requests of Various Size.

This highly precise machine can cut of M.S., Stainless Steel Aluminium, copper all thickness with Highest Level of accuracy.

Further, our service is carried out in compliance with the Highest level quality standards.

Features

- Unmatched quality
- Customization available
- Maximum accuracy

Pipe & Beam Rolling Solutions

Matching up with the ever increasing requirements of the customers, we are engaged in offering best quality pipe, beam & structural rolling job work.

Our offered services are synonymous to reliability and assurance of satisfaction, the offered services encapsulate precise cutting of stainless steel and mild steel as per the clients drawings.

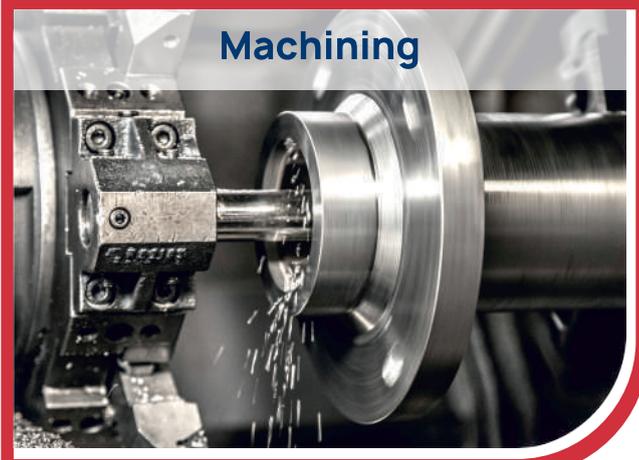

Executed beneath the assistance of our experienced employees, these rolling services are admired in the market. In addition to this, we offer customized solutions for all needs of clients. Further, we are offering the competitive services for varied thickness range at a leading price.

Services

We are one of the renowned companies of Industrial Engineering Service & Manufacturing. We provide an engineering solutions in industrial engineering services to our clients. We specialize in internal Fabrication & installation in vessels, columns, Reactors with best industry rates.

These services are extremely praised in industry due to their timely completion with high quality as per standards. We render these services in diverse terms and forms that meet on industry and client's demand.

Awards

Project

● L & T- Heavy Engineering Division- Hazira

1. Fabrication of small and medium size Reactors, Columns, Vessels etc.
2. Process piping for Skids and Equipment of various Materials.
3. Internal Fabrication & Installation of TSR, DCBB, Grid Beam, Rx Tray, Inlet Diffuser, Outlet Collector etc.

● AM/NS -Oxygen Plant- HAZIRA

Copper Tube Brazing in Distillation Column.

● L& T -RIL -DHDS Plant - Jamnagar

Tapper Lock Flange Replacements on a Heat Exchanger.

● ISGEC -Dahej

Outlet Collector, Grid Beam, Distribution & Flash Pan Tray Installation

● RHPL- BPCL- Hydrogen plant - KOCHIN

Hydrogen Reactor section replacement by SAW Automatic welding process.

● L& T CONSTRUCTION-NHSRCL

Fabrication, Supply of Structural assembly & Heavy Lifting Beams.

● SHELL LNG-CR3 - HAZIRA

SS304 piping module fabrication

● MAHSR-L&T CONSTRUCTION-BULLET TRAIN PROJECT - HAZIRA

Fabrication of Height gauge, LG main beam repair works, Adjustment concrete shutter, Deck & Soffit work, SBS segment handling
